Fellowship posted by French National Institute for Agricultural Research (INRA) (23/08/2016 18.07)

AgreenSkillsPlus - Postdoctoral Fellowships in Life and Environmental Sciences

 [Add to My Favorites](#)

AgreenSkills+ is an international postdoctoral fellowship programme co-funded by the European Union within the FP7 Marie Curie Actions. AgreenSkills+ is coordinated by INRA, the French National Institute for Agricultural Research, in collaboration with Agreenium-IAVFF, the French Agricultural, Veterinary and Forestry Institute. AgreenSkills+ is an excellence-oriented programme that welcomes applications for postdoctoral fellowships from scientists up to ten years of experience of research after PhD. Proposals are accepted for basic or applied research projects in all fields of life and environmental science which may contribute to scientific objectives of Agreenium-IAVFF members. Research projects should be settled within one of their 300 research laboratories in France. AgreenSkills+ greatly focus on the quality of its fellowships with very attractive salaries, excellent hosting conditions and training and networking opportunities offered to its fellows.

Research Fields

Agricultural sciences - Agronomics
 Economics - Agricultural economics
 Pharmacological sciences
 Neurosciences
 Environmental science - Natural resources management

Other costs

Depending of the research topic and the hosting lab conditions.

Eligibility criteria

For incoming fellows to France:
 Researchers, holding a PhD;
 Having 0 to 10 years research experience after PhD;
 Having published in peer-reviewed international journals;
 Applying to one of Agreenium-IAVFF research laboratories;
 Not having spent more than 12 months in France in the last 3 years prior to date of mobility.

For outgoing fellows who wish to carry out a research project in a university or research institution outside France, must fulfil the following eligibility criteria:

Researcher employed by an Agreenium-IAVFF member organization, with an employment contract in effect during the entire duration of the mobility period;
 Hold a PhD (or PhD will be awarded by mobility start date);
 Have spent at least 2 years in France within the last 3 years immediately prior to the expected date of recruitment;
 Having published in peer-reviewed international journals.

Selection process

Applications will be evaluated by an external selection panel according to strict selection criteria focusing on the applicant's professional skills and research proposal.

The evaluation process is divided into five steps:
